

PRIVACY POLICY

The security and data protection practices at Alliance Risk Group Inc. are up to date and among the strongest in the industry. The systems that we maintain have passed an Experian Independent 3rd Party Assessment (EI3PA) security program. The EI3PA program currently requires an annual revalidation, and we make sure our system revalidations are updated each year.

Alliance's online portal system is secure and eliminates missing information and spelling errors. To stay at the cutting edge of data security, Alliance employees attend webinars, seminars, and educational events that guarantee they are well versed in up-and-coming industry information.

Our firm does not send personal and identifiable information outside of the United States as a routine business practice. The only exception to this is when conducting international investigations. This process involves sending a subject name and date of birth only. All individuals who receive said information are licensed, and pre-vetted.

For more information, email sales@allianceriskgroup.com or call (518) 514-2944.
